The above are just a few examples of what Master Clean can do for you. There are hundreds more applications for Master Clean to master.

INDUSTRIAL INSTRUCTIONS

Master Clean may be used in different ways:

In solution can be applied with a spray bottle and steam-cleaning or dipping is also recommended.

DIPPING

Master Clean may be used for dipping to remove epoxy glues, carbon deposits from piston heads or valves, surface rust and heavy degreasing.

1. Use a 10:1 solution in a holding tank and soak part, engine or metals for approximately 2 hours.
2. Rinse with water to remove light oil film.
3. Solution may be filtered and re-used.

STEAM-CLEANING

Master Clean may be used in steam cleaners for heavy duty degreasing of heavy machinery, engines and/or equipment.

The following dilutions should be observed:

- | | |
|--------------------|------------------|
| 1. 50: 1 Solution | 100 PSI or Lower |
| 2. 60: 1 Solution | 200 PSI |
| 3. 70: 1 Solution | 300 PSI |
| 4. 80: 1 to 140: 1 | 400 PSI |

DEGREASE CAR ENGINES

1. Dilute Master Clean 10: 1 to 15: 1
2. Spray on Engine
3. Let sit for a few minutes
4. Rinse with Pressure Hose

PAINT OXIDATION AND OVERSPRAY PAINT

1. **PAINT OXIDATION** – Apply a 10:1 Solution to the section. Buff with a dry cloth. Master Clean restore the paint to its natural lustre.
2. **OVERSPRAY PAINT** – Apply a 10:1 solution with cloth. Rub the desired section.

This Liquid is Concentrated. Avoid using full strength on Glass, Painted Surface and fabric upholstery.

This Liquid is Concentrated. Do not use full strength on any surface. As you can see, Master Clean has many cleanings uses though, a few rules should be observed.

1. Never use stronger than 7:1
2. Test for color fastness when using for fabrics
3. Do not use on pure wool, pure silk or pure leather.

For any additional information please do not hesitate to contact me.
